Communal dining

Communal dining is an important part of many homes' social environment.

All long-term care homes may provide communal dining with the following precautions:

- **When not eating or drinking, residents should be encouraged to wear a mask where possible or tolerated. (residents voted not to)**
- **Caregivers and general visitors may accompany a resident for meals to assist them with eating; however, caregivers or general visitors must remain masked at all times and not join in the meal this includes outdoor functions at Parkview**
- **Frequent hand hygiene of residents and staff, general visitors, caregivers.**

Once again I would like to express my appreciation and gratitude for the Residents, staff and family members of Parkview Manor. Parkview is a special place that truly feels like a home. I am very thankful that I was able to end my Long Term Care career at Parkview Manor.

I look forward to continuing to serve others in the community of Markdale and Southern Grey County in a new role close to home.

All the best, Erin Hill-Thompson

Summer Clothing and Footwear!

Now that the hotter weather is here please check with the nursing and PSWs on your next visit to Parkview Manor that your loved one has properly fitting foot wear not backless shoes or slippers. We are focusing on fall prevention and Physiotherapy services with our new Physiotherapist Amir!

We also want to make sure that our residents have temperature appropriate clothing for the warmer weather. Please do not hesitate to call regarding sizing.

Until August take care and be well.
